

Lateral Data Release Notes

Product: Viewpoint

Version: 5.4.3

Release Date: December 04, 2012

Processing	Issue resolved with specific TIFF images where X and Y DPI values did not match would result in an import error.
Review	Any records imported since the 5.4 upgrade will now display a 'Yes' value in the Is Imported field. This change requires an update post of all imported data since the 5.4 upgrade.
